The Pendant Style Lighting Range

This extensive range of ELS pendants offers designers a wide choice of quality fittings for interior use. The continual commitment by ELS to use quality components is again reflected with Australian and Czech manufactured glass used throughout the range. As with all ELS products, these light fittings are available with energy saving, low maintenance, compact fluorescent lamps. Electronic and dimming versions are also available with some products. Typical uses for these products include hotels/motels, restaurants/bars, apartment development housing projects and home use.

HLP Highline Pendants

Glass pendant lights for self ballasted lamps.

- Australian made matt opal and clear glass
- Standard 850mm or custom drop - from ceiling to bottom of glass
- Chrome metalware
- Suitable for energy efficient self ballasted E27 base fluorescent lamps - max wattage 1 x 20w
- Special length glass lengths can be manufactured

Lamp Type	HLP40
1 x 20w self ballasted E27	HLP40/20w

SP35 + SP49 Saturn Pendant

Glass pendant lights for T5 fluorescent lamps.

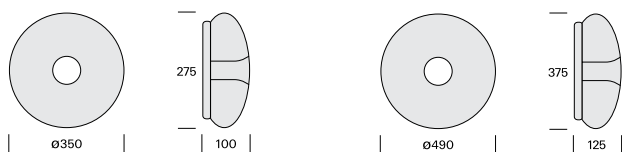

The fun, stylish shape of the Saturn range offers a fantastic alternative to the common oyster or pendant.

The handmade opal Triplex glass imported from Europe provides superior quality and finish. This quality is demonstrated in the accurately moulded glass lens achieving even thickness and no thin spots, therefore offering uniform illumination.

This range is not just all good looks; with the use of electronic gear and T5 fluorescent lamps on all models the luminaires are also an energy efficient choice.

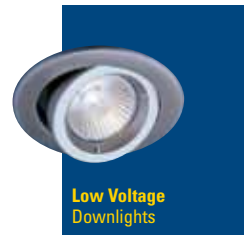

- Handmade European Triplex glass
- Standard 2 meter suspension that can be shortened on site
- Electronic gear standard on all models
- 2 sizes available, 350 and 490

Lamp Type	SP350	SP490
1 x 22w T5 2GX13 NON DIM	SP35/22T5E	
1 x 40w T5 2GX13 NON DIM		SP49/40T5E

Refer to matching wall/ceiling mounted version in wall light catalogue an ceiling light catalogue
